Introduction

Jagannath International Management School (JIMS), Kalkaji, New Delhi is organising a virtual seminar on "The Future of Women in India: Empowerment and Gender Equality" on Sat. 20th March 2021.

Overview

The glorious Indian history on one hand venerates women in many societal dimensions but on the other hand it echoes added challenges faced by them in education, business and politics compared to their male equal. Ancient India was a center of knowledge and noted women scholars contributed significantly to the advancement of society. An irony then that women in India though respected as idols of Gods continue even today to face exploitation, atrocity and disparity in both rural and urban societies.

At the Global level the canvas illustrates nearly 70% women are under the poverty line, around 80% of refugees are women and two – thirds of women are illiterate. Domestic violence female foeticide, rape, unequal wages and gender inequality are a stark global reality.

UNDP's Human Development Report, 2020 ranks India as 131st out of 189 countries. As regards Gender Inequality Index (GII), which is based on three measures of economy activity, reproductive health and empowerment, India is placed 123rd out of 162 nations. For empowerment the index measures the percentages of female seats in Parliament which is 13.5% in India. As regards the percentage of males and females with at least secondary education for females this was at 27.7% and for males it was 47% in India.

The principle of Gender Equality is enshrined in the Indian constitution in its Preamble, Fundamental Rights and Directive Principles. The Government of India has taken a number of initiatives over the years by introducing different schemes and policies which not only improve the social status of the female population but also as a solution of different social plights such as maternal mortality, female infanticide, female foeticide etc.

Though the journey has long begun it is once again time to pause, take stock and chart new pathways which can help to achieve rapid empowerment of Indian women in areas of health, education, economics and politics. Let all Indians pledge to recognise the 21st Century as synonymous with Women Empowerment in India.

Objectives

The seminar aims to achieve the following key objectives:

- Analyse progress achieved towards goal of Women Empowerment and Gender Equality in India.
- Share experiences relating to promotion of Women Empowerment and Gender Equality particularly, in education and business sectors.
- Discuss importance of Women Empowerment and Gender Equality in achieving social and economic growth in the country.
- Highlight role, policies and initiatives taken by Government in achieving Women Empowerment and Gender Equality.
